

PeerNetBC Rates

Custom workshops are designed to meet your group's needs and are usually hosted at your chosen venue. We collaborate and create with you (the host!) to determine what activities best meet your workshop's goals. We provide workshops of all sizes for various organizations and groups such as high schools, grassroots movements, newcomers, corporate teams, unions, and community groups.

For All Workshops

All workshops include:

- One pre-workshop info gathering meeting with host organization
- Ongoing email communications with host organization
- Rough agenda and/or workshop description prior to the workshop
- Copy of handouts and evaluations (digital or hard copy)

PeerNetBC designs our workshops:

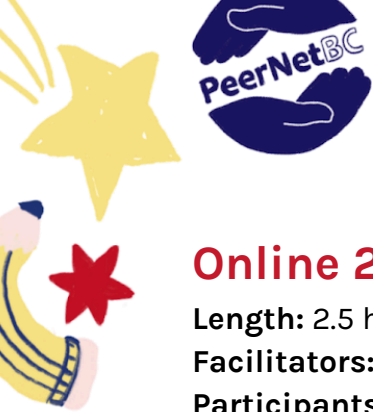

- To be focused on one or two of PeerNetBC's workshop themes.
- To cover facilitator transportation costs within the Greater Vancouver Area for in-person workshops.

The host is responsible for:

- Ensuring participants have access to their own device for virtual workshops.
- Handling workshop registration and participants communications such as sending reminders and zoom or location information.
- Covering facilitator transportation costs outside of the Greater Vancouver Area for in-person workshops.

We tailor our custom workshops to accommodate a range of participant numbers and workshop hours. PeerNetBC facilitators bring insight and experience to help you create a workshop that allows the time and space for meaningful discussion as well as interactive activities. Because our workshops are interactive and experiential, we recommend allowing enough time to build relationships and create a safe space for workshop participants. This looks different for each group.

Our rates do not include GST.
